RETRACTED: Following rigorous and careful concerns and consideration in the review of the article published in **Psychology, Evaluation, and Technology in Educational Research** entitled "Meta-analysis study: The effect of the independent curriculum integrated project-based learning model on student learning outcomes in natural science materials" Vol 5, No 2, pp. 54-65, April 2023, DOI: <http://dx.doi.org/10.33292/petier.v5i2.164>.

This paper has been found to violate the principles of **Psychology, Evaluation, and Technology in Educational Research** Publication and has been retracted.

The article has contained redundant material, and throughout a careful examination, the editor has found that the paper has also been published in **LITERACY : International Scientific Journals of Social, Education, Humanities**, Vol. 2, No. 1, pp. 19-33, 2023, DOI: <https://doi.org/10.56910/literacy.v2i1.408>.

The document and its content have been removed from **Psychology, Evaluation, and Technology in Educational Research**, and reasonable effort should be made to remove all references to this article.
